DETAILED ACTION

1. This action is responding to application filed 10/12//2006. Claims 2 and 9 are canceled. **Claims 1, 8, 14 and 18 are independent and allowed.**

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The current prior art discloses a network connected smart card transaction system. Current prior art also discloses a system whereby authorization is divided between two smart cards.

However, the current prior art does not specifically disclose adjusting a first set of user data to create an adjusted first set of user data in response to a transaction with a third device, encrypting the adjusted first set of user data to create an encrypted adjusted first set of user data, and transferring the encrypted adjusted first set of user data to a second personal data storage device via the second interface circuit.

So as indicated by the above statements, Applicant's arguments have been considered persuasive in light of the set of claims with limitations as well as the enabling portions of the specification. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
